Plaintiff,

vs.

DOES 2-71,

Defendants.

CASE No. 5:11-cv-02833-EJD

DEFENDANT'S RESPONSE TO PLAINTIFF'S
OMNIBUS RESPONSE TO MOVANTS' MOTIONS
TO QUASH

As an individual attempting to protect my privacy, I wish to counter some of the arguments put forth in the Plaintiff's Omnibus Response to Movants' Motions to Quash. The reason I filed a motion to quash was because I wish to maintain my anonymity as long as possible. Filing the motion under my given name would in fact defeat the purpose of filing the motion in the first place. I respectfully request the court consider the arguments below without requiring me to reveal personally identifiable information.

I. ONLY ONE IP ADDRESS BELONGS TO ME

To counter and dispose of one of the main issues in Plaintiff's Omnibus Opposition to Motions to Quash, I would like to state for the record that only one IP address was asserted by Comcast as belonging to me. While I would like to thank Plaintiff's counsel for being so concerned about the potential costs of litigation should the case be severed and it turn out that more than one identified IP address belong to me, in fact, only one IP address was identified as belonging to me and therefore this argument is moot as far as I am concerned.

Since Plaintiff's counsel is so concerned over the similarities in the motions to quash, I

invite the court and Plaintiff's counsel to learn more about the case in the same manner I did, namely, to perform a search on Google of "Steele Hansmeier scam." In the list of links, there is a website providing this document specifically for use by anonymous defendants to assert their rights in a court of law. Further, I would like to point out that the motion I submitted is available online via "PACER" and therefore any other Doe Defendants would have been able to see and copy my motion prior to filing one on their own.

II. PLAINTIFF'S COUNSEL IS NOT ENTITLED TO JOINDER

Plaintiff's counsel counters many of the cases I cited. However, Plaintiff clearly misstates the decision by this court in John Doe 1- 71 where this court clearly states "undersigned further recommends that if Boy Racer can refile separate complaints against Does 2 through 71...." I would like to point out that the court stated "complaints" in the plural, therefore, when this court said "refile separate complaints" that appears to mean "file more than one separate complaint". Plaintiff in fact filed ONE separate complaint, clearly contrary to the court order.

called "copyright troll" cases are being severed by -more and more of these so ,Further courts as judges come to realize that Federal joinder rules are being misused by lawyers in order to discover the identity of Comcastpa-to file a single lawsuit and use early ex parte discovery to gain the identity of Comcastpa-to file a single lawsuit and use early ex parte discovery to gain the identity of Comcastpa-to file a single lawsuit and use early ex Just .customers' identities in order to later send settlement letters demanding thousands of dollars The judge in .yet another case was thrown out by the Northern District of California ,last week specifically (2011 ,6 .Sept .Cal .D.N)BZ -4472-10 .Case No ,5011-1Does .LLC v ,On the Cheap noted that

I will also be serving this motion to the other Doe Defendants in this case and the other Defendants may choose to use a modified version of this document themselves.

I would like to point out that in the case of that the judge ,435-1Does .v .Inc ,IO Group :specifically noted that

Plaintiff’s motive for seeking joinder, therefore, is to keep its own litigation costs down in hopes that defendants will accept a low initial settlement demand. However, filing one mass action in order to identify hundreds of Doe defendants through pre-service discovery and facilitate mass settlements, is not what the joinder rules were established for. [Case No. 10-4382-SI (N.D. Cal. Feb. 3, 2011)]

III. AN IP ADDRESS IS NOT THE SAME AS A PERSON

Plaintiff is mistakenly arguing that getting the name of the person the IP address is BitTorrent downloading of the assigned to equals the identity of the party who engaged in the Without attempting to .an IP address is not a person ,Unfortunately for Plaintiff .eussi ta “mlif” I would like to point out that while the IP address ,argue the merits of the case at this early stage according to information given to me by)ed is currently registered to me believed to have been us I ,Further .I am not the only person in my household using said internet connection ,(Comcast d haveany of my neighbors coul ,would like to point out that because I use a “WiFi” connection This is not an attempt to argue the merits of the .accessed the internet via my wireless signal merely to point out that gaining the identity of the IP address holder is not the same as ,case tiff argues that all defendants have since Plain ,Further .identifying the copyright infringer ,notedOn the Cheap the court in ,somehow worked together to infringe on the “film” at issue

Most recent decisions on this issue have concluded that the use of the BitTorrent
